Subject: Medical Disability

I have a sensory integration disorder, which is a medical disability that

causes me not to be able to wear a mask or a face shield. I carry around a doctor's letter (attached) to that effect, that also states that I already had Covid, which would indicate

that there is no significant health risk, as the CDC clearly states that covid reinfection is rare

I have already flown several times without a mask on airlines that agreed to accommodate me.

CDC Guidelines and federal laws exempt someone like me from wearing a mask. Additionally, DOT instructed the airlines to allow people like me to fly without a mask.

Federal ADA laws require that you provide an accommodation for disabilities.

I would like to travel on your airline.

Can I travel on your airline without a mask?

Or can you provide an accommodation that will allow me to use your airline?

Thank you in advance.

There is no need for updating the doctors note, as a sensory processing disorder doesn't change every few months. It is a permanent condition.

Dear Mr. Abadi,

Thank you for your prompt response.

Please provide Air Tahiti Nui with a more recent doctor's note, as this one is dated more than 6 months

ago.

Thank you,

Air Tahiti Nui
